

Lofty Ideas

With Craig Wilkinson, of Re-style Loft Conversions Ltd

WORKING *upstairs*

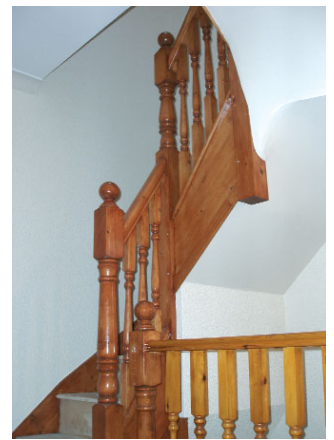

Thinking of extending your home? Then look up. That is what John and Sue Freeman did. Their three-bedroomed property was built in the 1960s, and the Freemans have owned it for 15 years.

They used their spare bedroom as an office, but wanted an extra bedroom for guests. So they called *Re-Style Loft Conversions* to convert their empty loft space into an office for John to use. This freed-up their spare bedroom.

John works for *South Yorkshire Workplace Chaplaincy*, and is also a chaplain for *South Yorkshire Fire & Rescue Service*. He works from home a couple of days a week and needs office space. He and Sue have a daughter, Hannah, 8.

Says Sue: *"We got three quotes for the work, but Craig at Re-Style was competitive on price and seemed incredibly knowledgeable and professional. He was clear and precise about what the work involved, and the time scale he would work to. We liked the fact he could deal with everything, including architects, and building regulations."*

Re-Style offer a complete design service. Their in-house architect and structural engineer worked to the Freemans' requirements. The project involved installing

steel beams, new electrical wiring and a radiator, erecting stud walls - and plastering. Four *Velux* windows were fitted, and storage space was created in the eaves.

A new staircase was installed to match the existing one. To fit the staircase, the Freemans lost

a small part of the third bedroom, where *Re-Style* fitted a wall. The project was completed on schedule, and within budget, in seven weeks.

Says Sue: *"Re-Style were great. The workmen were polite and considerate, We cannot praise them enough, and the finished room looks lovely."*

Re-Style Loft Conversions deal with all necessary planning permissions and building regulations. The company's qualified joiners, plasterers, electricians and plumbers ensure that every loft conversion is completed to the highest standards.

John and Sue Freeman asked *Re-Style Loft Conversions* to convert the empty loft space in their 3-bedroomed semi-detached Bradway home into a stunning office
